Good Start. good Timbre section know-
ly edges. Really fast attack

Escond not really fast. by Slr (163 bars)

Escond Slr was really good at the beginning after
not fast breathing and not in Taps.

Very steady by 212 bars and more by Escond?

Solo together by 371 ^(low) and after until 381 not really
together...

Balance sometimes quite good sometimes not so much

but really good performance. High tempo

more better at interpretation of the piece was

not very good but good played, there are

very good potential musicians in the band !!! Bravo!!!
